

**refrigerated – semi-trailer**  
**≤ -25°C / +2°C bis +8°C / +15°C bis +25°C**  
Wilhelm Schüssler Spedition GmbH - Eifelstraße 2-4, D-64646 Heppenheim

This certificate confirms the qualified status of the above mentioned type of trailer.  
The execution and the finalisation of the qualification was successfully done.

**Detail results are documented in reference document**

**document-No.:**

„201317\_IOQ\_LKW\_Auflieger\_V\_1\_0“ dated 03.07.2013

Qualification tests were carried out according to a pre-approved qualification protocol based on pharmaceutical standards according GDP 2013 and GMP documentation requirements.

Within the qualification the following topics were considered:

- Compliance of the cooling unit settings
- Calibration of the installed measurement sites
- Calibration of the used temperature probes
- Temperature distribution measurement including interpretation of measurement values

Therefore the above mentioned trailer is released for use with pharmaceutical products in the required temperature range of ≤ -25°C , + 2° to +8°C and +15° to +25°C within one-chamber as well as bi-chamber operations.

This certificate is valid until recalled.
